RANGE RESIDUE RECYCLING / RANGE MAINTENANCE

ABOUT US

What We Do

Demil Transport Services is one of the trusted leaders when it comes to support for Range Sustainment. We provide a one stop shop for all activities relating to the maintenance and upkeep on Military Training Ranges across the United States.

Working Together

Our company has worked with numerous range sustainment contractors and customers during the last 19 years. We offer an end-to-end client experience that includes seamless communication, budgeting, staffing, on-site organization, and solid, quality work every time.

Proven DEMIL Processes That Work!

RANGE RESIDUE RECYCLING SERVICE

Recycling of Range Residue

- We have processed over 10,000 tons of range related debris over the past 19 years.
- We utilize various methods to achieve demilitarization ensuring all material that leaves the range gets processed down to the level of scrap.

BDU 33's/MK76 Crushing

- A rotary impact crusher is used to demilitarize and recycle military practice ordnance such as MK76/BDU33's. The crusher disfigures the item so it no longer resembles military munitions and can be safely recycled.

Processing MPPEH to MDAS

- All our material that departs the range will adhere to the guidance dictated by DODM 4160.28-V3 and DODI 4160.62.
- We perform MDAS certifications, chain-of-custodies, DD1348-1, and certifications for LLRW (Low-Level Radioactive Waste) screening.

Heavy Tank Armor Recycling

- We have personnel specialized in the demilitarization of heavy steel using cutting torches. Typical targets include military armored vehicles processed into 3' x 4' sections for recycling purposes.
- We perform MDAS certifications, chain-of-custodies, DD1348-1, and certifications for LLRW (Low-Level Radioactive Waste).

Roll Off Service

- Various sized rolloff containers ranging from 10 cyds to 40 cyds. Containers are available as open-top or secured lid and sealable. Our company has an outstanding relationship with recycling foundries across the US.

BENEFITS OF THE ANC 8(a) DIRECT AWARD PROCESS

- Streamlined contracting process
- Reduced decision and award cycle time
- Lower administrative costs
- Direct negotiation providing best value to the Government
- Qualified contractor of choice
- Credit for promoting small business participation within agency
- Initiate a contract with high-level statement of work

KEY FACTORS

Advantages of contracting with an Alaska Native Corporation (ANC) are:

- SBA may direct award contract (commonly referred to as a sole source) with an unlimited ceiling to an 8(a)-participant owned and controlled by an ANC [13 CFR 124.506(b)]
- Awards above \$100M for DoD or \$22M for other Government Agencies require simplified J&A [FAR 6.302-5(b)(4)]
- Awards cannot be protested for size or lack of competition (13 CFR 124.517(a))
- Small Disadvantaged Business and Native American Credits [13 CFR 124.109(a)(4)]
- DOD Contractors who offer subcontracts to ANC 8(a) firms receive 5% of the total value of the subcontract as an incentive per Section 504 of the Indian Financing Act of 1974 (25 U.S.C. § 1544).

DIRECT AWARD PROCESS

1. Discuss the project with DTS and establish technical requirements, time frame and price estimate.
2. Contact your Contracting Officer (CO/KO), Agency Small Business Specialist, or SBA Business Development Specialist for assistance and provide a package that includes the requirement description, estimated period of performance, applicable NAICS code, anticipated dollar value, etc. IAW FAR 19.804-2 Agency Offering (DTS POCs below can help you prepare this package.)
3. The CO/KO will send an Offering Letter to the SBA requesting permission to conduct Direct Award negotiations with DTS. (DTS will have already alerted their SBA representative to expect the package in order to expedite the process.)
4. The SBA confirms DTS's eligibility and authorizes the negotiations.
5. The CO/KO negotiates with DTS.
6. Simplified Acquisition efforts do not require a Technical Proposal. The
 - a. CO/KO sends an RFQ to DTS requesting a Cost Proposal. Upon receipt of the Cost Proposal, the CO/KO negotiates cost and terms with DTS
 - b. If the estimate exceeds the Simplified Acquisition threshold, the KO sends RFP to DTS requesting Technical and Cost Proposals. Upon receipt of these proposals, the CO/KO negotiates cost and terms with DTS.
7. Upon completion of negotiations, the CO/KO prepares a contract award document and sends it to DTS for signature.
8. Upon receipt of the executed contract from DTS the CO/KO signs the contract and sends it to the SBA.
9. Contract performance begins.

DTS 8(a) Certification:

SBA 8(a) Case Number: C00sTz

SBA 8(a) Entrance Date: 8/23/2022

SBA 8(a) Exit Date: 8/22/2031
